EXHIBIT "A"**DETAILED SCOPE OF SERVICES****Division B Services - Detailed Design**

The City of Long Beach ("the City") currently owns and operates the Long Beach Water Pollution Control Plant (LBWPCP), it's approximately 51-mile pipeline collection system, and a total of three (3) satellite sanitary sewer pump stations (PS) which are the Roosevelt Avenue Pump Station, servicing the eastern portion of the island, the New York Avenue Pump Station and the Indiana Avenue Pump Station, servicing the west. In order to improve the flood resilience of the Long Beach wastewater system, Nassau County ("the County") and the City have entered into an inter-municipal agreement (IMA), and through a phased approach, the County will acquire the Long Beach sewer infrastructure. This project aims to storm-harden the three satellite pump stations in order to mitigate potential damage from future storm events.

Upon County approval of the technical design reports, the Firm agrees to perform all the usual and necessary design services in connection with the preparation of detailed contract drawings, specifications and cost estimates for the Long Beach Satellite Pump Station Mitigation Project suitable for public bidding. It is anticipated that the project will be bid as a single project.

1. The contract drawings shall be prepared in an AutoCAD release acceptable to the County. The Firm shall furnish the contract drawings in CAD and PDF format. In all circumstances, the hard copy of any such plans and drawings shall be relied on by the County and shall control in the event of any conflict or discrepancies.
2. Submittal of bid plans and master specification book in *.PDF format; as well as eight (8) hard copies of each full-size drawings and spec book.
3. During the preparation of these documents the Firm shall perform the following services: Submit preliminary (60% design completion), draft bid (90% design completion) and pre-bid (100% design completion) full size plans and specifications for County review (six [6] sets for each) and approval.
4. Attend review meetings on the average of twice per month in order to review job progress and to resolve design and other questions. A representative of the Firm will prepare draft and final minutes of each meeting and after County approval distribute final minutes to all attendees.
5. Submit three (3) copies of a detailed construction cost estimate with each of the milestone design submissions (at 60%, 90% and 100% design completion). The cost estimate will have a breakdown by CSI division for each cost item in the estimate.
6. Prepare and submit the necessary Environmental Impact Forms.

7. Prepare permit applications, reports or submittals required by other agencies having jurisdiction. This work task will not be considered complete until it culminates in a permit or pre/post design approval by the appropriate agency or agencies. The Firm must be aware of the latest applicable codes and agency procedural requirements in order to expeditiously complete this design task. Correspondence shall be submitted directly to the agency for review/approval with at least two copies to the County, unless otherwise directed. Typical regulatory agencies involved in our Environmental Engineering Projects may include but will not be limited to the following:
 - a. New York State Department of Environmental Conservation-Title V Plant-wide Emission Source Update Submittals permits, SPDES General Permit-02 for runoff from construction sites
 - b. Nassau County Agencies-Fire Marshal and/or Health Department
 - c. Other Local agencies (Towns, Villages...)
8. Submit written responses to all County review comments.
9. Review the County's Master Project Labor Agreement and undertake a feasibility study to determine whether it would be in the County's best interest to incorporate this project under the terms of the PLA, and if warranted, prepare the addendum to add the project to the PLA and subsequently oversee the execution of the same by the responsible parties.
10. Make periodic site visits as necessary for a complete understanding of the system operation.
11. Submittal of bid plans and a master specification book. The Firm shall have the required number of sets of bid documents printed without the assistance of the County.
12. Review all comments and/or questions posed by prospective bidders.
13. Prepare all necessary addenda to the contract documents.
14. Review all bid proposals received and provide a written recommendation regarding award of the construction contracts.
15. If requested, the Firm will provide copies of any and all design calculations.

If the total amount of the lowest responsible construction bids should exceed the final approved construction cost, which is based on the Firm's final construction cost estimate, by more than fifteen (15) percent, the County may require the Firm to revise the plans, at no additional cost to the County, so as to stay within the final approved estimated cost of construction. The Firm is responsible for obtaining construction budget information from the County.

In preparing the contract specifications, the County shall furnish the Firm with a copy of the standard contract "Front End" consisting of the Notice to Bidders, Instructions to Bidders, Agreement and General Conditions. The Proposal Forms, Special Conditions (Division 1) and all other sections of the technical specifications shall be developed by the Firm. The specifications shall be written following the CSI format.

PDF format documents shall be bookmarked for ease of navigation. Drawings shall be bookmarked by design discipline with nested drawing bookmarks, and specifications shall be bookmarked by Front End section and CSI divisions with nested section bookmarks.

16. PSEG Long Island Commercial Efficiency Program

PSEG Long Island offers a rebate to customers who install variable frequency drives and other energy saving equipment in 2016. Should this rebate be available upon completion of this Project design, the Engineer shall coordinate the potential rebate with PSEG on behalf of the County and provide any information necessary. The County is interested in maximizing the use of available PSEG rebates.

Division C - General Inspection Services

Prior to and during the course of project construction, the Firm shall perform the following General Inspection Services:

1. Conform the contract bid documents (plans and specifications) to reflect changes made by any addenda and provide the County with ten (10) sets of conformed plans in paper (bound), CAD, and PDF format, and conformed master specification book in paper (bound) and PDF format. Bookmark PDF format documents consistent with Division B requirements.
2. Provide representation at the site(s) pre-construction conference.
3. Review and approve detailed construction, shop and erection drawings.
4. Review and approve all proposed deviations and substitutions which do not constitute significant changes to the scope of work or design intent of the contract drawings.
5. Review all laboratory, shop, mill, material and equipment test reports.
6. Prepare supplemental sketches, if required, to reflect actual field conditions.
7. Make periodic field visits as necessary or reasonably required to observe the construction work and confer with the County and Prime Construction Contractors on construction progress and problems which arise during the progress of the construction work.
8. Assist the County in interpreting the construction contract documents.

9. Review change orders and prepare supplementary drawings and detailed independent cost estimates in a timely fashion so as not to impede construction progress.
10. Arrange for the Firm's project manager and support staff to attend update (one [I] per month) and job (one [1] per month) meetings.
11. Witness and provide a written report on shop tests for all major equipment.
12. Provide consultation on special construction problems by specialists in specific fields of work.
13. Assist the County in the final inspection of the work to determine if each construction contract has been completed in accordance with the contract documents. Provide written certification that project completion was in accordance with the contract documents.
14. Throughout the construction period and at the completion of the construction activities, field verify and check the Prime Construction Contractors' Record Drawings on which the Prime Construction Contractors have indicated changes in the construction work as-built to the extent possible based on the Firm's periodic site visits. This task shall include, but not be limited to the following:
 - a. That all equipment is shown as installed and that furnished dimensions are correct.
 - b. That all required wiring diagrams, conduit schedules, etc. are provided and are in agreement with the field installation.
 - c. That all changes, additions and deletions are shown.
 - d. That the record drawings are legible and clearly drawn.
 - e. That all supplemental and detailed drawings are included.
15. Check Prime Construction Contractors' prepared as-built drawings and modify digital computer files of contract drawings to reflect work as actually constructed. Provide electronic copies of the as-built drawings in CAD and PDF format.

Division D - Facility Operation and Maintenance Manual

Under this division of work, the Firm shall compile and prepare Operation and Maintenance Manuals ("O&M Manual"), one for each of the three pump stations, using the EPA Publication, "Considerations for preparation of Operation and Maintenance Manuals (EPA-430/9-74001)" as a guideline.

The O&M Manual provides a detailed description of the facilities, process control strategies, start-up and shutdown procedures, test procedures, emergency response procedures, safety guidelines, troubleshooting procedures, equipment preventive maintenance schedules as well as process flow schematics, isometric figures, cross section and plan diagrams, valve schedules, single line diagrams, and miscellaneous tables.

The completion of the appropriate O&M Manual sections will coincide with each segment of construction. A draft version of the O&M manual sections will be submitted for County review and approval prior to payment for the 90% completion point in construction. A final version of the O&M manual sections will be submitted for County review and approval at the 100% construction completion point to incorporate issues learned during startup. The final O&M manual sections will be supplemented with cataloged and bound copies of the approved equipment manufacturers' O&M Manuals.

Six (6) copies of the draft O&M Manual Sections will be submitted for County review. Two (2) copies of the electronic files (both text and graphics) used to produce the manuals will be turned over to the County. In addition, two (2) hard copies (bound) of the final O&M Manual Sections will be submitted for County review and approval. The County requires compatibility of software as described in the subsequent paragraph.

Prepare and provide to the County, Standard Operating Procedures (SOPs) to assist Operating Staff in the routine operation, maintenance and monitoring of all key components of the project. The SOPs's shall be site and equipment specific and be stand-alone documents with a maximum length of two (2) pages. The SOPs are to be mounted, laminated and then posted near the appropriate equipment or control panel.

Add/remove equipment associated with this project on the pump station's Equipment Asset Inventory database.

Two (2) additional copies of the SOP's shall be included in the appropriate O&M Manual. Copies of the electronic files (both text and graphics) used to produce the SOPs will be turned over to the County. The software is to be compatible with existing County software and if not, the Firm will supply additional copies to the County.

Division E- Facility Start-Up, Staffing and Training Services

Under this division of work the Firm shall provide the following services:

1. Start-Up Services.
 - a. The Firm shall conduct start-up services during construction and shall continue until initiation of the one (1) year project performance period. The following detailed breakdown delineates the specific elements of the services associated with the project.
 - b. Scheduling. The Firm, in conjunction with the County, shall develop an overall start-up sequencing schedule that will define in detail significant start-up activities. The overall start-up sequencing schedule shall be coordinated with the County and Construction Contractors and updated as necessary.
 - c. Start-Up Assistance. The Firm shall provide expert on-site start-up assistance prior to and during initial flow-through for the process units. Start-up assistance during the first year of operation will be provided on a reasonable "on-call" basis for troubleshooting, debugging, cost-effective process optimization, and general startup supervision. Services to be provided include:
 - d. Strategic Start-Up Plan. This plan is designed to delineate major and minor events

expected when placing into operation equipment installed in connection with the project. The Start-up Plan shall identify specific plant components and unit processes that will affect each other and establish a network of related steps that will lead to a logical and smooth start-up. The strategic Start-up Plan shall also define the roles and responsibilities of the participants (County, Firm and construction Firms). This plan shall be reviewed with the County. Emphasis throughout the start-up will be on the O&M responsibilities of the plant staff to ensure protection of equipment warranties.

- e. Establish Process Parameters. The Firm shall review the process design and process operational parameters and establish start-up procedures for each unit process. Start-up procedures shall contain complete information pertaining to control of the equipment and process trains associated with the project.
 - f. Checklists, Logs, Records and Reports. Although various checklists and plant operating logs are in use, the Firm shall, if necessary, upgrade the system by reviewing existing shift checklists, operating logs, records and reports for all processes affected by the inclusion of the project. The Firm shall provide recommendations for upgrading existing record-keeping, checklists and logs for all components associated with these systems and develop new checklists and logs for new or modified plant processes.
 - g. Troubleshooting and Debugging. It is anticipated that equipment problems will arise during and following start-up. The Firm shall provide assistance to address problems encountered by the County during the project performance period, analyze these problems and develop solutions that will minimize the overall effects on plant personnel and processes.
 - h. Process Optimization. The Firm shall provide operations start-up assistance to ensure that steps are taken to adjust and "fine tune" the processes and associated equipment once they have been started up and stabilized.
2. Training Services.
- a. The Firm, in conjunction with the County, shall assist in the coordination of manufacturer's training for all new components of the project. This training shall be geared toward the following areas:
 - i. Process theory/process control.
 - ii. Mechanical, electrical, instrumentation and HVAC component function and interface.
 - iii. Preventative/corrective maintenance.
 - iv. Safety.
 - v. Laboratory training.
 - vi. "Hands-on" training.
 - b. This training shall be coordinated with the County's on-going training program. Any materials developed shall be turned over to the County for future use and reference.
 - c. General training shall be given during the construction period prior to start-up. Supplemental training, if deemed necessary by the County as a result of process modifications during the one-year performance period, shall be provided by the Firm and given prior to the conclusion of the one-year performance period, and shall incorporate any adjustments in the process resulting from operational experience.
3. One (1) Year Project Operating Report.

a. The Firm shall monitor the performance of the facilities installed for the first year of operation and provide documentation to report on the capability of the project of meeting the overall performance criteria. One (1) year after the initiation of operation of the systems, the Firm shall prepare an evaluation of the project for review and acceptance by the County, if required by the Commissioner. In the event that the improvements do not operate as planned, a report defining the problem and corrective work necessary will be prepared.

Project Schedule

Contract milestones are as follows:

Milestone #1: 60% Design Submittal	3 months from NTP
Milestone #2: 90% Design Submittal	6 months from NTP
Milestone #3: 100% Design Submittal	8 months from NTP

APPENDIX A1
FINAL DESIGN ENGINEER'S ASSUMPTION OF PROFESSIONAL LIABILITY

As part of its services to the County, the FDE shall review the PMJV's preliminary design documents and submit to the PMJV and County one of the following: 1) Unconditional written acceptance of the PMJV's preliminary design documents, or 2) Detailed, written comments taking exception to specific elements of the preliminary design presented in the PMJV's preliminary design documents. In the event of the latter alternative (written exceptions to the preliminary design), the FDE's comments shall be detailed and present a clear technical case, based on generally-accepted engineering and physical principles, indicating the specific reasons for such exceptions. A technical memorandum shall be included with the comments. FDE's total design fee presented in the payment schedule shall include performing the review of the preliminary design documents, preparing and submitting written comments/exceptions, and two meetings with the PMJV regarding the preliminary design documents. Meetings will be at a location mutually acceptable to the FDE, County and PMJV. If required, the FDE shall make revisions to the preliminary design documents, including issuance of a written amendment to the preliminary design documents, if appropriate. Ultimately the conclusion of such efforts shall be the FDE's written, unconditional acceptance of the preliminary design documents. After the FDE has furnished written acceptance of the preliminary design documents, the FDE shall be the design professional in responsible charge for the assignment in accordance with applicable laws and regulations, including New York State laws and regulations pertaining to the practice of professional engineering (including, but not limited to, the Rules of the New York State Board of Regents, Part 29.3, Paragraph a.3). Accordingly, FDE shall have sole and complete professional liability and responsibility for the assignment and entire project, including the preliminary design documents as finalized.

EXHIBIT “B”**PAYMENT SCHEDULE**

Payment to the Firm for all services as outlined in “Exhibit A,” including any extra services that may be authorized under this Agreement, shall be made as follows:

Detailed Design (Division B) & Construction Related Services (Divisions C, D & E) - For the remainder of the design and construction phases, including the construction administration phases (Sections B, C, D & E), the Firm shall receive a fee equal to a percentage of the total construction cost of the project, exclusive of Extra Services and Reimbursable expenses, to cover all costs associated with all work to complete divisions B, C, D, and E as outlined in the appropriate sections of Exhibit A. The design percentage fee for the construction contract will be determined by a straight-line interpolation between the limits of the construction cost delineated as follows:

<u>NET CONSTRUCTION COST</u>	<u>DESIGN FEE PERCENTAGE</u>
\$7,560,000 and above	11.5%
\$6,930,000	11.5%
\$6,300,000	11.5%
\$5,670,000	12.8%
\$4,725,000 and below	15.3%

An initial estimated construction cost of **Six Million Three Hundred Thousand dollars (\$6,300,000)** will be used as the basis for progress payments. Interim adjustments to the estimated construction costs, as mutually agreed upon by the parties with the approval of the Commissioner, shall be used to determine the payments to the Contractor.

Until the construction cost is established by the award of the construction contract(s), the Firm's design fee percentage shall be based upon the latest approved construction cost estimate. The design fee percentage shall be used as a basis of computing partial payments to the Firm during the progress of the work. When the actual cost of construction is determined, the total amount paid to the Firm under these Divisions of work shall be adjusted based upon such final cost of construction, and any overpayment or underpayment of design fees shall be adjusted accordingly.

For the remainder of the design and construction phases, including the construction administration phase (Sections B, C, D & E), the Firm shall receive a fee equal to a percentage of the total construction cost of the project, exclusive of Extra Services and Reimbursable expenses, payable as follows:

<u>Phase of Work</u>	<u>% of Fee</u>
Detailed Design	45%
General Inspection Services	35%
Facility Operation and Maintenance Manual	10%
Facility Start-Up, Staffing and Training Services	10%

Partial Payments - The Contractor's fee for services shall be paid in monthly installments. The amount of each partial monthly payment shall be determined by the portion of the Contractor's work completed for each Division, as approved by the Commissioner. The portion of Contractor's work completed during the General Inspection Services phase shall not exceed the project schedule percent complete as indicated on the approved monthly CPM schedule update.

Overtime - Payment vouchers which include overtime shall not be approved by the Department without the Contractor having obtained prior written approval of the Department for such overtime. The premium pay for overtime, above the straight hourly rate shall not be subject to any multiplier. In computing the cost to the County for overtime work performed, the overtime period shall be paid at the straight hourly rate times the applicable multiplier, plus the overtime premium cost incurred.

Construction Costs - It is agreed that the total cost of construction shall be the final total cost of the construction contract, including extra change order amounts, except that, in computing the cost of construction the following items shall not be included:

- a. Fees paid to the Contractor, subcontractors or construction engineers, cost of land acquisition or legal fees and the cost of equipment purchased outside of the construction contracts.
- b. The cost of any and all change orders required by reason of the failure of the Contractor to include such change order items in the contract documents, or by reason of errors made by the Contractor in the preparation of the contract documents.
- c. Moneys paid by the County to a contractor or subcontractor by way of settlement or satisfaction of any claims or legal actions for delay brought against the County.
- d. Work for which the Contractor has already been paid such as "Extra Work."

In the event the Contractor's services result in change order "Credits" to the County, such credit amounts shall not be deducted from the final cost of construction. It is the intention of the parties that the Contractor shall be compensated for services rendered, notwithstanding that such services may result in a change order credit which reduces the final cost of construction.

If in the further event the credit change order requires the Contractor to perform additional

services, then, subject to the approval of the Commissioner, the Contractor shall be paid for such services pursuant to the subsection entitled "Extra Services or Additional Costs," herein.

If the total amount of the lowest responsible construction bids should exceed the final approved estimated construction cost by more than fifteen (15) percent, the County may require the Contractor to revise the plans, at no additional cost to the County, so as to stay within the final approved estimated cost of the construction.

If the award of the construction contract(s) is not made prior to the expiration or termination of this Agreement, then with respect to payment for the Division B, C, D and E services, instead of being paid based on the total cost of construction as outlined above, the Contractor shall be paid a fair and reasonable amount based on services actually rendered as mutually agreed by the Department and the Contractor.

Extra Services or Additional Costs - If the Contractor is required to perform extra services or incurs additional expenses due to substantial changes ordered by the Department, which changes are not due to the fault or negligence of the Contractor; the Contractor shall be compensated for such extra expense and services. Payment terms for any additional services shall be as mutually agreed by the Department and Contractor, as either a lump sum or based on actual salaries of personnel as stipulated herein, and as further defined below. Such extra services are to be provided only after written authorization by the Department.

For any additional services to be paid on actual salaries the Contractor shall be compensated for such extra services by an amount not to exceed two and seventy-five hundredths (2.75) times the actual salaries or wages paid to the technical personnel engaged in this phase of the work, exclusive of payroll taxes, insurance, and any and all fringe benefits. The Contractor shall be compensated for such services performed by principals while engaging in a technical capacity in the project, based on the principal's hourly rate, times a multiplier not to exceed two and seventy-five hundredths (2.75), exclusive of payroll taxes, insurance and any and all fringe benefits. Notwithstanding the foregoing, the maximum billable rate, after application of the multiplier, shall not exceed **two hundred twenty-five dollars (\$225)** per hour.

Appendix EEEqual Employment Opportunities for Minorities and Women

The provisions of this Appendix EE are hereby made a part of the document to which it is attached.

The Contractor shall comply with all federal, State and local statutory and constitutional anti-discrimination provisions. In addition, Local Law No. 14-2002, entitled "Participation by Minority Group Members and Women in Nassau County Contracts," governs all County Contracts as defined herein and solicitations for bids or proposals for County Contracts. In accordance with Local Law 14-2002:

(a) The Contractor shall not discriminate against employees or applicants for employment because of race, creed, color, national origin, sex, age, disability or marital status in recruitment, employment, job assignments, promotions, upgradings, demotions, transfers, layoffs, terminations, and rates of pay or other forms of compensation. The Contractor will undertake or continue existing programs related to recruitment, employment, job assignments, promotions, upgrading, transfers, and rates of pay or other forms of compensation to ensure that minority group members and women are afforded equal employment opportunities without discrimination.

(b) At the request of the County contracting agency, the Contractor shall request each employment agency, labor union, or authorized representative of workers with which it has a collective bargaining or other agreement or understanding, to furnish a written statement that such employment agency, union, or representative will not discriminate on the basis of race, creed, color, national origin, sex, age, disability, or marital status and that such employment agency, labor union, or representative will affirmatively cooperate in the implementation of the Contractor's obligations herein.

- (c) The Contractor shall state, in all solicitations or advertisements for employees, that, in the performance of the County Contract, all qualified applicants will be afforded equal employment opportunities without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.
- (d) The Contractor shall make best efforts to solicit active participation by certified minority or women-owned business enterprises ("Certified M/WBEs") as defined in Section 101 of Local Law No. 14-2002, for the purpose of granting of Subcontracts.
- (e) The Contractor shall, in its advertisements and solicitations for Subcontractors, indicate its interest in receiving bids from Certified M/WBEs and the requirement that Subcontractors must be equal opportunity employers.
- (f) Contractors must notify and receive approval from the respective Department Head prior to issuing any Subcontracts and, at the time of requesting such authorization, must submit a signed Best Efforts Checklist.
- (g) Contractors for projects under the supervision of the County's Department of Public Works shall also submit a utilization plan listing all proposed Subcontractors so that, to the greatest extent feasible, all Subcontractors will be approved prior to commencement of work. Any additions or changes to the list of subcontractors under the utilization plan shall be approved by the Commissioner of the Department of Public Works when made. A copy of the utilization plan any additions or changes thereto shall be submitted by the Contractor to the Office of Minority Affairs simultaneously with the submission to the Department of Public Works.
- (h) At any time after Subcontractor approval has been requested and prior to being granted, the contracting agency may require the Contractor to submit Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises. In addition, the contracting agency may require the Contractor to submit

such documentation at any time after Subcontractor approval when the contracting agency has reasonable cause to believe that the existing Best Efforts Checklist may be inaccurate. Within ten working days (10) of any such request by the contracting agency, the Contractor must submit Documentation.

- (i) In the case where a request is made by the contracting agency or a Deputy County Executive acting on behalf of the contracting agency, the Contractor must, within two (2) working days of such request, submit evidence to demonstrate that it employed Best Efforts to obtain Certified M/WBE participation through proper documentation.
- (j) Award of a County Contract alone shall not be deemed or interpreted as approval of all Contractor's Subcontracts and Contractor's fulfillment of Best Efforts to obtain participation by Certified M/WBEs.
- (k) A Contractor shall maintain Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises for a period of six (6) years. Failure to maintain such records shall be deemed failure to make Best Efforts to comply with this Appendix EE, evidence of false certification as M/WBE compliant or considered breach of the County Contract.
- (l) The Contractor shall be bound by the provisions of Section 109 of Local Law No. 14-2002 providing for enforcement of violations as follows:
 - a. Upon receipt by the Executive Director of a complaint from a contracting agency that a County Contractor has failed to comply with the provisions of Local Law No. 14-2002, this Appendix EE or any other contractual provisions included in furtherance of Local Law No. 14-2002, the Executive Director will try to resolve the matter.
 - b. If efforts to resolve such matter to the satisfaction of all parties are unsuccessful, the Executive Director shall refer the matter, within thirty days (30) of receipt of the complaint, to the American Arbitration Association for proceeding thereon.
 - c. Upon conclusion of the arbitration proceedings, the arbitrator shall submit to the Executive Director his recommendations regarding the imposition of sanctions, fines or penalties. The Executive Director shall either (i) adopt the recommendation of the arbitrator (ii) determine that no sanctions, fines or penalties should be imposed or (iii) modify the recommendation of the arbitrator, provided that such modification shall not expand upon any sanction recommended or impose any new sanction, or increase the amount of any recommended fine or penalty. The Executive Director, within ten days (10) of receipt of the arbitrators award and recommendations, shall file a determination of such matter and shall cause a copy of such determination to be served upon the respondent by personal service or by certified mail return receipt requested. The award of the arbitrator, and the fines and penalties imposed by the Executive Director, shall be final determinations and may only be vacated or modified as provided in the civil practice law and rules ("CPLR").

(m) The contractor shall provide contracting agency with information regarding all subcontracts awarded under any County Contract, including the amount of compensation paid to each Subcontractor and shall complete all forms provided by the Executive Director or the Department Head relating to subcontractor utilization and efforts to obtain M/WBE participation.

Failure to comply with provisions (a) through (m) above, as ultimately determined by the Executive Director, shall be a material breach of the contract constituting grounds for immediate termination. Once a final determination of failure to comply has been reached by the Executive Director, the determination of whether to terminate a contract shall rest with the Deputy County Executive with oversight responsibility for the contracting agency.

Provisions (a), (b) and (c) shall not be binding upon Contractors or Subcontractors in the performance of work or the provision of services or any other activity that are unrelated, separate, or distinct from the County Contract as expressed by its terms.

The requirements of the provisions (a), (b) and (c) shall not apply to any employment or application for employment outside of this County or solicitations or advertisements therefor or any existing programs of affirmative action regarding employment outside of this County and the effect of contract provisions required by these provisions (a), (b) and (c) shall be so limited.

The Contractor shall include provisions (a), (b) and (c) in every Subcontract in such a manner that these provisions shall be binding upon each Subcontractor as to work in connection with the County Contract.

As used in this Appendix EE the term "Best Efforts Checklist" shall mean a list signed by the Contractor, listing the procedures it has undertaken to procure Subcontractors in accordance with this Appendix EE.

As used in this Appendix EE the term "County Contract" shall mean (i) a written agreement or purchase order instrument, providing for a total expenditure in excess of twenty-five thousand dollars (\$25,000), whereby a County contracting agency is committed to expend or does expend funds in return for labor, services, supplies, equipment, materials or any combination of the foregoing, to be performed for, or rendered or furnished to the County; or (ii) a written agreement in excess of one hundred thousand dollars (\$100,000), whereby a County contracting agency is committed to expend or does expend funds for the acquisition, construction, demolition, replacement, major repair or renovation of real property and improvements thereon. However, the term "County Contract" does not include agreements or orders for the following services: banking services, insurance policies or contracts, or contracts with a County contracting agency for the sale of bonds, notes or other securities.

As used in this Appendix EE the term "County Contractor" means an individual, business enterprise, including sole proprietorship, partnership, corporation, not-for-profit corporation, or any other person or entity other than the County, whether a contractor, licensor, licensee or any other party, that is (i) a party to a County Contract, (ii) a bidder in connection with the award of a County Contract, or (iii) a proposed party to a County Contract, but shall not include any Subcontractor.

As used in this Appendix EE the term "County Contractor" shall mean a person or firm who will manage and be responsible for an entire contracted project.

As used in this Appendix EE "Documentation Demonstrating Best Efforts to Obtain Certified Minority or Women-owned Business Enterprises" shall include, but is not limited to the following:

- a. Proof of having advertised for bids, where appropriate, in minority publications, trade newspapers/notices and magazines, trade and union publications, and publications of general circulation in Nassau County and surrounding areas or having verbally solicited M/WBEs whom the County Contractor reasonably believed might have the qualifications to do the work. A copy of the advertisement, if used, shall be included to demonstrate that it contained language indicating that the County Contractor welcomed bids and quotes from M/WBE Subcontractors. In addition, proof of the date(s) any such advertisements appeared must be included in the Best Effort Documentation. If verbal solicitation is used, a County Contractor's affidavit with a notary's signature and stamp shall be required as part of the documentation.
- b. Proof of having provided reasonable time for M/WBE Subcontractors to respond to bid opportunities according to industry norms and standards. A chart outlining the schedule/time frame used to obtain bids from M/WBEs is suggested to be included with the Best Effort Documentation

- c. Proof or affidavit of follow-up of telephone calls with potential M/WBE subcontractors encouraging their participation. Telephone logs indicating such action can be included with the Best Effort Documentation
- d. Proof or affidavit that M/WBE Subcontractors were allowed to review bid specifications, blue prints and all other bid/RFP related items at no charge to the M/WBEs, other than reasonable documentation costs incurred by the County Contractor that are passed onto the M/WBE.
- e. Proof or affidavit that sufficient time prior to making award was allowed for M/WBEs to participate effectively, to the extent practicable given the timeframe of the County Contract.
- f. Proof or affidavit that negotiations were held in good faith with interested M/WBEs, and that M/WBEs were not rejected as unqualified or unacceptable without sound business reasons based on (1) a thorough investigation of M/WBE qualifications and capabilities reviewed against industry custom and standards and (2) cost of performance. The basis for rejecting any M/WBE deemed unqualified by the County Contractor shall be included in the Best Effort Documentation
- g. If an M/WBE is rejected based on cost, the County Contractor must submit a list of all sub-bidders for each item of work solicited and their bid prices for the work.
- h. The conditions of performance expected of Subcontractors by the County Contractor must also be included with the Best Effort Documentation
- i. County Contractors may include any other type of documentation they feel necessary to further demonstrate their Best Efforts regarding their bid documents.

As used in this Appendix EE the term "Executive Director" shall mean the Executive Director of the Nassau County Office of Minority Affairs; provided, however, that Executive Director shall include a designee of the Executive Director except in the case of final determinations issued pursuant to Section (a) through (l) of these rules.

As used in this Appendix EE the term "Subcontract" shall mean an agreement consisting of part or parts of the contracted work of the County Contractor.

As used in this Appendix EE, the term "Subcontractor" shall mean a person or firm who performs part or parts of the contracted work of a prime contractor providing services, including construction services, to the County pursuant to a county contract. Subcontractor shall include a person or firm that provides labor, professional or other services, materials or supplies to a prime contractor that are necessary for the prime contractor to fulfill its obligations to provide services to the County pursuant to a county contract. Subcontractor shall not include a supplier of materials to a contractor who has contracted to provide goods but no services to the County, nor a supplier of incidental materials to a contractor, such as office supplies, tools and other items of nominal cost that are utilized in the performance of a service contract.

Provisions requiring contractors to retain or submit documentation of best efforts to utilize certified subcontractors and requiring Department head approval prior to subcontracting shall not apply to inter-governmental agreements. In addition, the tracking of expenditures of County dollars by not-for-profit corporations, other municipalities, States, or the federal government is not required.

M. OTHER INSURANCE

This insurance is excess over any valid and collectible "other insurance" whether such "other insurance" is stated to be primary, contributing, excess, contingent or otherwise. This provision does not apply to a policy bought specifically to apply as excess of this insurance.

However, if you specifically agree in a written contract or agreement that the insurance provided to any person or organization that qualifies as an insured under this insurance must apply on a primary basis, or a primary and non-contributory basis, then insurance provided under Coverage A is subject to the following provisions:

1. This insurance will apply before any "other insurance" that is available to such additional insured which covers that person or organization as a named insured, and we will not share with that "other insurance", provided that the injury or damage for which coverage is sought is caused by an "event" that takes place or is committed subsequent to the signing of that contract or agreement by you.
2. This insurance is still excess over any valid and collectible "other insurance", whether primary, excess, contingent or otherwise, which covers that person or organization as an additional insured or as any other insured that does not qualify as a named insured.

COUNTY OF NASSAU
DEPARTMENT OF PUBLIC WORKS
Inter-Departmental Memo

TO: Office of the County Executive
Att: Arthur T. Walsh, Chief Deputy County Executive

FROM: Department of Public Works

DATE: October 12, 2023

SUBJECT: Proposed Personal Service Agreement with Cameron Engineering
Recommendation of Firm for Final Design Services
Long Beach Satellite Pump Stations
Project ID No. S35109-05C

This Department proposes to enter into a personal services agreement with the firm Cameron Engineering to provide Final Design services for the Long Beach Satellite Pump Stations project.

Firms were requested to submit technical and cost proposals in accordance with the Department's Request for Proposals (RFP) dated June 16, 2023, and due July 21, 2023. The RFP was prepared in accordance with the Department's policy for assessing technical understanding, statement of qualifications, and proposed project schedule. The RFP was posted on the County's website **eProcure**, advertised in **Newsday**, and the **Contract Reporter**.

The scope of the work includes but is not limited to the following:

- Final Design Engineering services for the Design and Construction of the flood mitigation of the three satellite pump stations, New York Avenue, Indiana Avenue, and Roosevelt Boulevard pump stations from potential damages from future storm events.
- Provide final biddable design documents and probable construction cost estimate services.
- Updating drawings to reflect existing conditions.

Technical and cost proposals were received from four (4) firms on July 21, 2023, in response to this RFP. Proposals were received from Cameron Engineering, H2M architects and engineers, LKB, and Nelson & Pope. The proposals were evaluated by both registered professional engineers and other personnel within the Department of Public Works: Vincent Falkowski, Deputy Commissioner of Environmental Programs, Christopher Vella, Project Manager II, Gerard Ennis, Environmental Specialist III, Frank Antetomaso, Assistant to the Deputy Commissioner.

After tabulating the combined technical scores and establishing ranking order as per the below table, it was determined that Cameron, H2M and LKB, were ranked as the three (3) most qualified firms. These firms received the highest ranking because they proposed the most competent team, the best staffing schedule, and have proven experience managing similar projects. Nelson & Pope while technically competent were ranked significantly lower than Cameron, H2M, and LKB due to Nelson & Pope not having the same level of experience and expertise for this type of work as the other proposing firms.

The cost proposals for the top three technically ranked firms were then opened and recorded.

The lowest ranking firm (Nelson & Pope) cost was not considered due to their significantly lower technical scoring.

The results of the technical evaluation and proposed costs are as follows:

FIRM(S)	RANK	TECHNICAL SCORE	PROPOSED COST	PROPOSED COST w/ 30% CONTINGENCY	Dollar/Point Value
H2M	1	87.50	\$869,400.00	\$1,130,220.00	\$2,484.00
Cameron	2	85.75	\$724,500.00	\$941,850.00	\$2,112.24
LKB	3	80.50	\$445,000.00	\$578,500.00	\$1,381.98
Nelson & Pope	4	75.25	NA	NA	NA

Page 2

SUBJECT: Proposed Personal Service Agreement with Cameron Engineering
Recommendation of Firm for Final Design Services
Long Beach Satellite Pump Stations
Project ID No. S35109-05C

H2M had the highest technical score but also had the highest proposed cost, being \$144,900 (\$188,370 with contingency) more than Cameron, and \$424,400 (\$551,720 with contingency) more than LKB. When a cost per point value was calculated H2M had the highest cost followed by Cameron then LKB. The committee members after discussions were all in agreement that Cameron having a high technical score similar to H2M but with a lower proposed cost and cost per point value provided the best value for awarding this contract. The committee members and the subject matter experts all felt that LKB's cost proposal which was below the engineer estimate was too low to be considered realistic. Due to that reasoning LKB could not be recommended for awarding of this contract.

In our professional judgement, the proposal submitted by Cameron receiving a high technical ranking and reasonable proposed cost provided the best value to Nassau County. Cameron has similar experience for this type of work having previously worked on various pump stations throughout the County and local areas. Their proposed personnel have good experience with wastewater and have done similar work at numerous other pump stations. Cameron also has familiarity with Long Beach having previously done work at various sites there. As such, it is the department's recommendation that Cameron be retained to provide Final Design Services for the Long Beach Satellite Pump Stations project.

Cameron is a local firm having extensive experience in the wastewater field with Nassau County and other various municipalities in the New York Metropolitan area. Cameron's local office is located in Woodbury, NY.

Funding for these Design services is available under Capital Project No. S35109. In accordance with procedural guidelines, CSEA has been notified of this proposed agreement.

Please signify below if you approve or disapprove of our recommendation, after which we will implement the next appropriate Departmental procedure(s).
