As a veteran, you have valuable skills and experience. We'd like to help you translate them to the civilian workplace. That's why we developed Barracks to Business: Translating Military Skills into Career Success Workshops.

We're excited to be able to partner with Nassau and Suffolk Counties in presenting this important workshop to you. The workshop will be led by Anthony Silvera, Northwell Health Veterans Programs Specialist and retired US Airman.

Our Barracks to Business Workshop helps you effectively communicate the skills you developed during your service, such as leadership, discipline, flexibility, organization and change management to prospective employers. We'll work with you to craft a winning resume and interview like a pro. Let's work together to make your transition from the military to the civilian workforce a rewarding one.
