

FOR VETERANS,

Family Members and Caregivers

VETERANS ARE TWICE AS LIKELY TO DIE

**from an opioid overdose than
their civilian counterparts.**

LEARN HOW TO RECOGNIZE AND PREVENT AN OVERDOSE!

We're seeing some of our military men and women abusing opioids like Oxycodone, Hydrocodone and Heroin at alarming rates; And too many of them are dying from it.

If you don't think it can happen to you, or to the veteran in your life, think again.

Learn what to do in case of an overdose and how to administer the life-saving, overdose- reversal agent called Naloxone, or Narcan.

Narcan is the antidote to an opioid overdose and you can get your kit free!

It could be the difference between life and death.
