

LEGISLATOR SIELA A. BYNOE

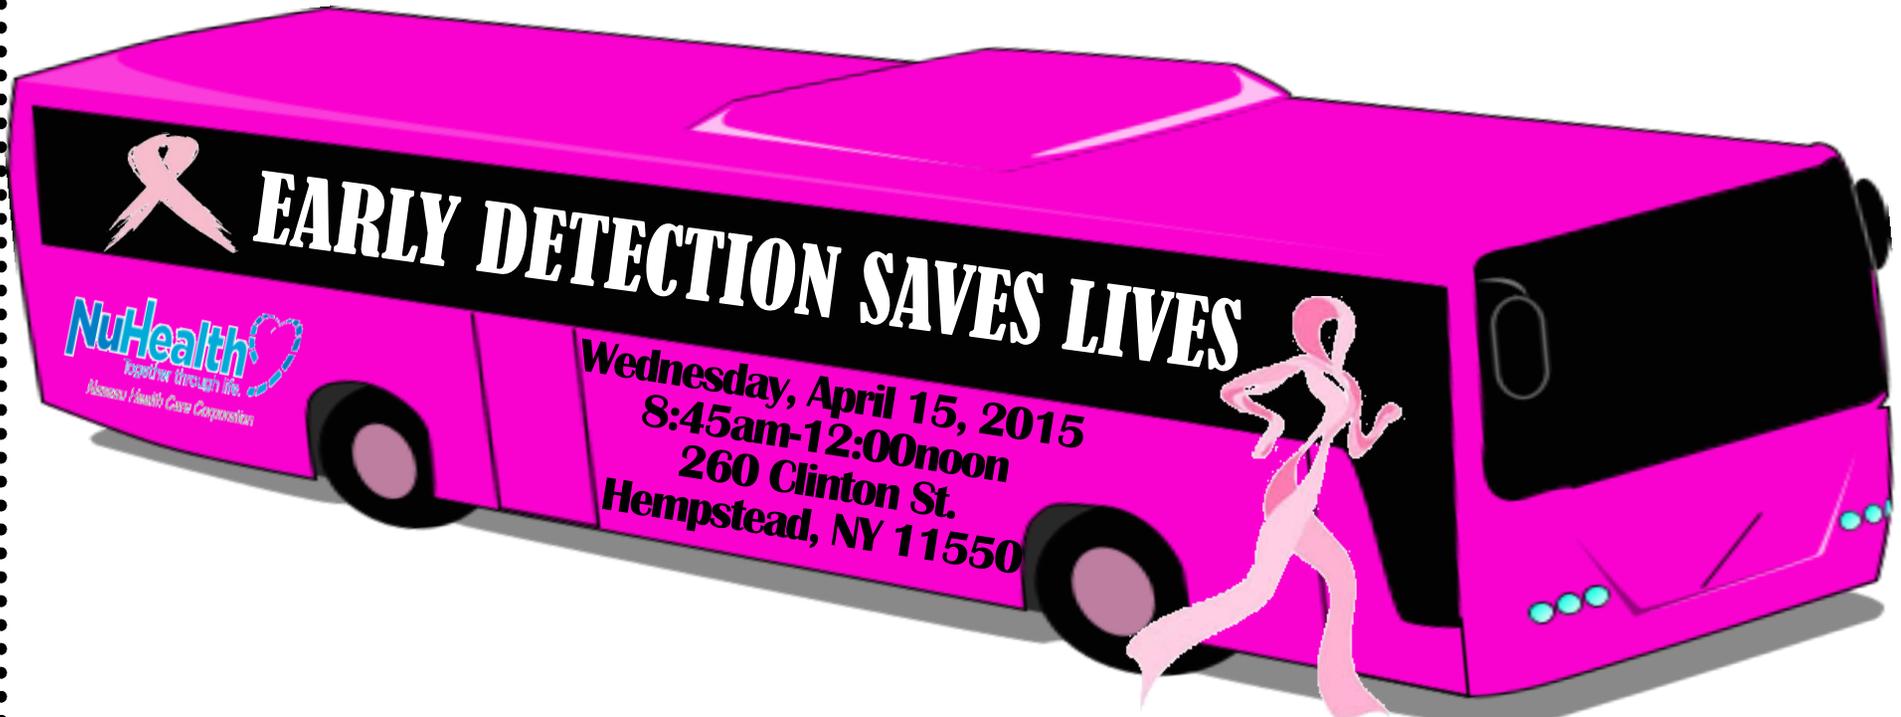

Proudly Announces

 **Breast Cancer Screening** 

From the NUMC MAMMOGRAPHY VAN

Legislator Bynoe is pleased to announce that the Nassau University Medical Center Cancer Screening Van will be coming to our area to provide breast cancer screenings for woman over age fifty. The screening will include a breast examination by a nurse, mammography and instructions for breast self-examination. If it's been at least a year since your last mammography and you are planning to receive an exam, you will need a prescription for the exam from your doctor (if you have insurance) and must provide any past exam films, if available. Women with health insurance will be required to make a co-payment. The mammography is free for uninsured women, based on eligibility guidelines.

For additional information or to make an appointment please call Legislator Siela A. Bynoe's Office (516) 571-6202

Appointments are required and are scheduled on a first come, first served basis
